

PLAN 'D' PREDICTIONS - RULES & REGS

WINNERS

The winners of the main Premiership/FA Cup/International competitions are simply the Player/Players with the most points at the completion. The positions in the ORIGINALS & SWINDLE leagues are determined by the most Points, then the most Monthly Wins, then the most Fixture Wins. HEAD 2 HEAD & FRIENDLY leagues are determined by most Points, then the most Fixture Wins only. This works as a kind of 'Goal Difference' if you like!

PREDICTIONS

I would prefer Predictions to be submitted by Thursday night, Friday morning at a push, or 1 clear day before midweek Fixtures. This is when an e-mail detailing everyone in your respective leagues Predictions are sent out. If you have not submitted your Predictions, you will not receive this e-mail. Also, after this e-mail, NO changes to already submitted Predictions will be accepted. I will of course accept any late entries, but games that have already been played, or that have already kicked off, before your Predictions are RECEIVED BY ME, will not be included! Also, any player that fail to submit their Predictions before the first game kicks off, forfeits the right to have a Joker game for that Fixture!

PREMIERSHIP

You score 3 points for a Correct Score and 1 point for a Correct Result. You also select 1 game per Fixture to be your 'Joker Game' (As long as you have submitted before the 1st game) This Joker doubles any points you score for that game. If any Premiership game/games are postponed/abandoned, or the date changed so that takes it out of the date range of the current Fixture, your Prediction is void. You can then predict the game again in the Fixture that it is subsequently played. If you do not enter a Joker Game or your Joker Game is postponed, I will endeavour to get another choice to be your Joker, or you can text/e-mail me directly your new choice. If this does not happen in time, then you automatically default to the 'Most Popular Joker' of the Fixture, whether the game has been played or not. If there happens to be more than one game with the highest number of Jokers, then it is the game that appears latest in the list for that Fixture that is used, this gives more chance that the game is yet to be played! If postponements leave the Fixture as less than 5 games, I reserve the right to declare all Jokers VOID for that particular Fixture, whether the game has been played or not. Also, if a re-arranged game falls within a Fixture you have already submitted your scores for. I will endeavour to get your prediction via E-mail or Text, or you can text/e-mail me directly your new prediction for this game. If this does not happen in time, then you automatically default to the 'Most Popular Score' for that particular game

FA CUP

The FA Cup Predictions are based on the result rather than the score (i.e., 'H' Home, 'A' Away, 'D' Draw) Only the first game in each round count, replays are not included. For the later rounds the RESULT IS AFTER 90 MINUTES and the 'Home' team are the first drawn team. The points go up in value as each round progresses. Each player also picks 6 Bonus Teams which double any points in games that these teams are involved in. Your team does NOT have to win, it is based purely on the correct result. In the event of any postponed/abandoned or re-arranged games, your Prediction stands until the game is completed. If you have 2 Bonus Teams drawn against each other and you correctly predict the outcome, then you get 'DOUBLE BUBBLE' (**See Below)

INTERNATIONAL COMPETITIONS

For the Group Stage, you get 2 points the Correct Score, and if you do not get the Correct Score but you still get the Correct Result you get 1 point. Same for the Knockout Stage but the RESULT IS AFTER 90 MINUTES, and the 'Home' team are the first drawn team. Also, the points increase for each Round. You also select 'Star Teams' which will double any points you score. Your team does NOT have to win, it is purely based on the correct result. You choose your teams from the starting groups, and they double your points for all the group games they are involved in. But in order to carry on scoring Double Points in the Knockout Stage your choice MUST FINISH TOP OF THEIR GROUP! They then continue to Double your points for any game they are involved in all the time they remain in the competition, APART FROM THE 3RD PLACE PLAY-OFF. If you have 2 Star Teams drawn against each other and you correctly predict the outcome, then you get 'DOUBLE BUBBLE' (**See Below)

**Double Bonus Points Only - So if the Round is worth 3 points, you do NOT get 12 points (3+3 x 2) rather than 6, you get 9 points (3x2 +3)

IF THERE ARE ANY DISPUTES ARISING - THE DECISION OF THE COMMITTEE IS FINAL
